## WORK EXPERIENCE

### Crafft AG, Frontend developer

08.01.2024 - 01.06.2025

Crafft is a web and mobile agency that offers digital services and operates at the intersection of tech/branding.

- Develop and optimize user interfaces for both small-scale and large-scale websites, ensuring responsiveness and cross-browser compatibility.
- Collaborate with the Backend for CMS headless websites Django/Wagtail stack.
- Work in tandem with design team to convert visual concepts into functional web components, maintaining a high fidelity to UX/UI designs.
- Bi-weekly demos for clients to showcase new features and progress, addressing feedback to refine and improve project deliverables.

### Hegias AG, Frontend developer

15.03.2018 - 30.06.2023

Hegias AG is a startup that deals with virtual reality in the field of architecture through a CMS entirely based on the web. Users upload models that are converted into so called "Scene" in virtual reality.

- Frontend creation and development from scratch (CMS was not yet created by the time I joined).
- Collaboration with the Backend for the design of REST APIs.
- Editing/adding API on Backend side with Node.js/express (MongoDB).
- Collaboration with VR team to render scenes.
- Collaboration with the Pipeline team to manage model upload files.
- Style development and collaboration with CSS/UX design developer.
- Chief Frontend of a small team (3 members). Task management through platforms such as Monday/GitLab.
- Code review through pull requests.
- Daily scrum/Sprints.

### Svega Sagl, Fullstack developer

11.07.2016 - 31.01.2018

Svega offers a service of leads generation in the field of house renovation.

- Creation of the CMS that manages the service (client/administration side), hence Frontend and Backend.
- Database design and creation.
- Requirements analysis with the CTO.

### Dedalos R&D, Fullstack developer (Diploma work)

17.08.2015 - 29.02.2016

Development of a web solution that allows the compilation of a living will through a form integrated into the client's website.

- Created Frontend and Backend of the feature.
